20250124

Abstract

In this article, the development processes and plans are logged.

1 Main Goal

2 Roadmap

3 Dependencies

This section, the third-party dependencies will be logged and explained about how they are used in this specific project.

3.1 GLAD

The glad is used for the version that support the multiple-window graphics. The configuration for this dependence is according to [1, gladMultiwinMx].

3.2 GLFW

The main graphics dependencies is glfw3. I used its sources code form its Github repository.

And Simply

```
1     def greet(name):  
2         print(f"Hello, {name}!")  
3     greet('Alice')
```

```
1     cmake_minimum_required(VERSION 3.10)  
2     project(MyProject)  
3     add_executable(MyApp main.cpp)
```

*alternative email:zhangjr1022@mails.jlu.edu.cn

3.3 ImGui
